FOREWORD

MONTHLY RATES AND COMPARATIVE BILLS ONTARIO HYDRO AND ASSOCIATED MUNICIPAL UTILITIES

JULY 1990

This publication is issued annually to show retail electricity rates and selected bills for customers of Ontario Hydro and associated Municipal Utilities.

Section 1 states the most commonly used retail rates of each of the 315 municipal utilities.

Section 2 states the most commonly used retail rates for Ontario Hydro's Retail System.

Section 3 contains graphs depicting the trends and the distributions of comparative bills. This section also contains the tables of comparative bills.

Before using data from this report, the user should read the Explanatory Notes, which precede each section, to become familiar with the contents of the tables.

EXPLANATORY NOTES

MONTHLY RATES
AND COMPARATIVE BILLS
ONTARIO HYDRO
AND ASSOCIATED
MUNICIPAL UTILITIES

JULY 1990

Section 1

- * 313 utilities had rate changes from July 1, 1989 to July 1, 1990.
- * Rates other than those contained in Tables 1 to 8 may also be available in any of the utilities listed and inquiries regarding these should be made directly to the utility concerned.
- * All utilities are listed in Table 1 and 3.
- * Utilities with Commercial-Industrial rates are listed in Table 6.
- * Utilities with rates applicable to General Customers over 5,000 kW - Time of Use Rates are shown in Table 8
- * All rates are quoted in the net amount and are those in effect July 1, 1990.
- * Time periods for time of use rates:
(Eastern Standard Time)
Winter: all hours, October 1 through March 31
Summer: all hours, April 1 through September 30

Peak: 0700 to 2300 hours (local time) Monday to Friday inclusive, except for public holidays, including new Year's Day, Good Friday, Victoria Day, Canada Day, Civic Holiday (as in Toronto), Labour Day, Thanksgiving Day, Boxing Day, and Christmas Day.
Off Peak: all other hours

Section 3

- * Graph 1 presents trends in the average bills of the residential rate class for low and medium energy use.
- * Graph 2 presents the trend in the residential class end rate cents per kW.h. This trend represents the average end rate of the 315 municipalities, each weighted by its customers in the residential class.
- * Graphs 3 to 16 show distributions of the 315 municipalities according to the bill size for each of the comparative bills reported. The median is defined as the value for the middle utility, ie., 50 per cent of the utilities have a value greater than the median, and 50 per cent a value lower. The average is the arithmetic average of the comparative bills of the 315 municipal utilities. The weighted average is obtained by multiplying the comparative bill of each of the 315 municipal utilities by its customers in the rate class, and dividing the sum of these weighted bills by the total number of customers in the rate class.
- * The calculated bills shown in Tables 1 to 4 are based on rates contained in Section 1 and Section 2.
- * There are no bill comparisons for the General over 5,000 kW classification on Time of Use rates.

FOREWORD

MONTHLY RATES AND COMPARATIVE BILLS ONTARIO HYDRO AND ASSOCIATED MUNICIPAL UTILITIES

JULY 1991

This publication is issued annually to show retail electricity rates and selected bills for customers of Ontario Hydro and associated Municipal Utilities.

Section 1 states the most commonly used retail rates of each of the 311 municipal utilities.

Section 2 states the most commonly used retail rates for Ontario Hydro's Retail System.

Section 3 contains graphs depicting the trends and the distributions of comparative bills. This section also contains the tables of comparative bills.

Before using data from this report, the user should read the Explanatory Notes, which precede each section, to become familiar with the contents of the tables.

EXPLANATORY NOTES

MONTHLY RATES
AND COMPARATIVE BILLS
ONTARIO HYDRO
AND ASSOCIATED
MUNICIPAL UTILITIES

JULY 1991

Section 1

- * 310 utilities had rate changes from July 1, 1990 to July 1, 1991.
- * Rates other than those contained in Tables 1 to 8 may also be available in any of the utilities listed and inquiries regarding these should be made directly to the utility concerned.
- * All utilities are listed in Tables 1 and 3.
- * Utilities with Commercial-Industrial rates are listed in Table 6.
- * Utilities with rates applicable to General Customers over 5,000 kW - Time of Use Rates are shown in Table 8
- * All rates are quoted in the net amount and are those in effect July 1, 1991.
- * Time periods for time of use rates:
(Eastern Standard Time)
Winter: all hours, October 1 through March 31
Summer: all hours, April 1 through September 30

Peak: 0700 to 2300 hours (local time) Monday to Friday inclusive, except for public holidays, including New Year's Day, Good Friday, Victoria Day, Canada Day, Civic Holiday (as in Toronto), Labour Day, Thanksgiving Day, Boxing Day, and Christmas Day.
Off Peak: all other hours

Section 3

- * Graph 1 presents trends in the average bills of the residential rate class for low and medium energy use.
- * Graph 2 presents the trend in the residential class end rate cents per kW.h. This trend represents the average end rate of the 311 municipalities, each weighted by its customers in the residential class.
- * Graphs 3 to 16 show distributions of the 311 municipalities according to the bill size for each of the comparative bills reported. The median is defined as the value for the middle utility, i.e. 50 per cent of the utilities have a value greater than the median, and 50 per cent a value lower. The average is the arithmetic average of the comparative bills of the 311 municipal utilities. The weighted average is obtained by multiplying the comparative bill of each of the 311 municipal utilities by its customers in the rate class, and dividing the sum of these weighted bills by the total number of customers in the rate class.
- * The calculated bills shown in Tables 1 to 4 are based on rates contained in Section 1 and Section 2.
- * There are no bill comparisons for the General over 5,000 kW classification on Time of Use rates.

July 1992

FOREWORD

MONTHLY RATES
AND COMPARATIVE BILLS
ONTARIO HYDRO
AND ASSOCIATED
MUNICIPAL UTILITIES

JULY 1992
ISSN 0826-7898

This publication is issued annually to show retail electricity rates and selected bills for customers of Ontario Hydro and associated Municipal Utilities.

Section 1 states the most commonly used retail rates of each of the 311 municipal utilities.

Section 2 states the most commonly used retail rates for Ontario Hydro's Retail System.

Section 3 contains graphs depicting the trends and the distributions of comparative bills. This section also contains the tables of comparative bills.

Before using data from this report, the user should read the Explanatory Notes, which precede each section, to become familiar with the contents of the tables.

For enquiries concerning this publication, please contact:

MUNICIPAL UTILITIES

JULY 1992

Section 1

- * 311 utilities had rate changes from July 1, 1991 to July 1, 1992.
- * Rates other than those contained in Tables 1 to 8 may also be available in any of the utilities listed and inquiries regarding these should be made directly to the utility concerned.
- * All utilities are listed in Tables 1 and 3.
- * Utilities with Commercial-Industrial rates are listed in Table 6.
- * Utilities with rates applicable to General Customers over 5,000 kW - Time of Use Rates are shown in Table 8
- * All rates are quoted in the net amount and are those in effect July 1, 1992.
- * Time periods for time of use rates:
(Eastern Standard Time)
Winter: all hours, October 1 through March 31
Summer: all hours, April 1 through September 30

Peak: 0700 to 2300 hours (local time) Monday to Friday inclusive, except for public holidays, including New Year's Day, Good Friday, Victoria Day, Canada Day, Civic Holiday (as in Toronto), Labour Day, Thanksgiving Day, Boxing Day, and Christmas Day.
Off Peak: all other hours

EXPLANATORY NOTES

MONTHLY RATES AND COMPARATIVE BILLS ONTARIO HYDRO AND ASSOCIATED MUNICIPAL UTILITIES

JULY 1992

Section 3

- * Graph 1 presents trends in the average bills of the residential rate class for low and medium energy use.
- * Graph 2 presents the trend in the residential class end rate cents per kW.h. This trend represents the average end rate of the 311 municipalities, each weighted by its customers in the residential class.
- * Graphs 3 to 16 show distributions of the 311 municipalities according to the bill size for each of the comparative bills reported. The median is defined as the value for the middle utility, i.e. 50 per cent of the utilities have a value greater than the median, and 50 per cent a value lower. The average is the arithmetic average of the comparative bills of the 311 municipal utilities. The weighted average is obtained by multiplying the comparative bill of each of the 311 municipal utilities by its customers in the rate class, and dividing the sum of these weighted bills by the total number of customers in the rate class.
- * The calculated bills shown in Tables 1 to 4 are based on rates contained in Section 1 and Section 2.
- * There are no bill comparisons for the General over 5,000 kW classification on Time of Use rates.

MONTHLY RATES AND COMPARATIVE BILLS

Ontario Hydro and Associated Municipal Utilities
July 1993

FOREWORD

MONTHLY RATES
AND COMPARATIVE BILLS
ONTARIO HYDRO
AND ASSOCIATED
MUNICIPAL UTILITIES

JULY 1993
ISSN 0826-7898

This publication is issued annually to show retail electricity rates and selected bills for customers of Ontario Hydro and associated Municipal Utilities.

Section 1 states the most commonly used retail rates of each of the 310 municipal utilities.

Section 2 states the most commonly used retail rates for Ontario Hydro's Retail System.

Section 3 contains graphs depicting the trends and the distributions of comparative bills. This section also contains the tables of comparative bills.

Before using data from this report, the user should read the Explanatory Notes, which precede each section, to become familiar with the contents of the tables.

For enquiries concerning this publication,

MUNICIPAL UTILITIES

JULY 1993

Section 1

- * 308 utilities had rate changes from July 1, 1992 to July 1, 1993.
- * Rates other than those contained in Tables 1 to 8 may also be available in any of the utilities listed and inquiries regarding these should be made directly to the utility concerned.
- * All utilities are listed in Tables 1 and 3.
- * Utilities with Commercial-Industrial rates are listed in Table 6.
- * Utilities with rates applicable to General Customers over 5,000 kW - Time of Use Rates are shown in Table 8
- * All rates are quoted in the net amount and are those in effect July 1, 1993.
- * Time periods for time of use rates:
(Eastern Standard Time)
Winter: all hours, October 1 through March 31
Summer: all hours, April 1 through September 30

Peak: 0700 to 2300 hours (local time) Monday to Friday inclusive, except for public holidays, including New Year's Day, Good Friday, Victoria Day, Canada Day, Civic Holiday (as in Toronto), Labour Day, Thanksgiving Day, Boxing Day, and Christmas Day.
Off Peak: all other hours

EXPLANATORY NOTES

MONTHLY RATES AND COMPARATIVE BILLS ONTARIO HYDRO AND ASSOCIATED MUNICIPAL UTILITIES

JULY 1993

Section 3

- * Graph 1 presents trends in the average bills of the residential rate class for low and medium energy use.
- * Graph 2 presents the trend in the residential class end rate cents per kW.h. This trend represents the average end rate of the 310 municipalities, each weighted by its customers in the residential class.
- * Graphs 3 to 16 show distributions of the 310 municipalities according to the bill size for each of the comparative bills reported. The median is defined as the value for the middle utility, i.e. 50 per cent of the utilities have a value greater than the median, and 50 per cent a value lower. The average is the arithmetic average of the comparative bills of the 310 municipal utilities. The weighted average is obtained by multiplying the comparative bill of each of the 310 municipal utilities by its customers in the rate class, and dividing the sum of these weighted bills by the total number of customers in the rate class.
- * The calculated bills shown in Tables 1 to 4 are based on rates contained in Section 1 and Section 2.
- * There are no bill comparisons for the General over 5,000 kW classification on Time of Use rates.
